

Friday 01/07 h. 10.00 (CEST)

Accelerating The Next Generation Of Immune Medicine with Cellular Proteomics

Abstract:

Looking to keep your data on the cutting edge of research? Discover how IsoPlexis is powering the future of advanced medicines to fight complex diseases by providing correlative clinical & pre-clinical immune biomarkers that differentiate mechanistic information in the competitive clinical world of immunology.

Program:

10:00 Introduction Alfatest
10:15 IsoPlexis technology

Speakers:

Giulia Anselmi
Product manager Alfatest

Aula F Lente Didattica Policlinico
G.B Rossi di Verona

Piazzale L. Scuro, 10
37134 Verona
